cabreraclaudiov@gmail.com ☎ +56) 9 4501 7103

## Profile

Third-year Computer Engineering student at Duoc UC, focused on full-stack development (Angular, Python/Flask, SQL). Practical experience in projects such as 'AniEmotion' (anime recommender with user management) and 'L-Barbero' (appointment management). Participated in the academic project 'FERREMAS' (e-commerce, APIs). One year in customer service (Konecta/Wom) developed my communication and problem-solving skills. Seeking a junior opportunity to apply my knowledge, grow, and use my English.

## TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, SQL, HTML5, CSS3, Java (Basic)
- Frontend: Angular, TypeScript, Bootstrap
- Backend: Flask (Python)
- Databases: SQL (Modeling, Queries), SQLite
- Tools/Others: Git, GitHub, API REST, Postman
- Languages: English (Intermediate-Advanced), Spanish (native)
- 

## Work Experience

### Call Center Executive | Konecta (for Wom)

Santiago

Feb 2023 – Feb 2024

- Handled customer inquiries (fiber optics/mobile), resolved technical/commercial issues, and managed incidents. Strengthened effective communication and ability to work under pressure.

## Projects

- AniEmotion - Full-Stack Anime Recommender: Developed this web system with Python/Flask and JavaScript to recommend anime based on emotions, including user profiles, login, reviews, and comments, and integrating the Jikan API.
- Technologies: Python, Flask, JavaScript, SQL, API REST. GitHub: <https://github.com/Claushi27/Anime-Recommender>
- Mobile App for Attendance and Weather (Angular): A mobile app developed in Angular that offers QR code-based attendance registration, utilizes geolocation, and displays local weather via an API.
- Technologies: Angular, TypeScript, APIs REST. GitHub: <https://github.com/Claushi27/RegisterAPP>
- FERREMAS - E-commerce and Integration (Academic Project): Collaborated on the development of a product API (Java/SQL) and the integration of the Webpay payment gateway and a currency conversion API.
- Technologies: Java, SQL, APIs REST. GitHub: [https://github.com/Claushi27/Ferremas\\_API](https://github.com/Claushi27/Ferremas_API)

## Certifications

- Data Model Analysis and Development | Duoc UC
- Software Programming | Duoc UC
- IT Requirements Analysis and Planning | Duoc UC
- Software Quality | Duoc UC
